Product Code Core Platform	Product Name	Product Description	Endpoint (USD)
TAN-CORE-CLOUDGOV-US	Tanium Core Platform - Tanium Cloud for US Government	Tanium Core helps to enable organizations with visibility and control across endpoints. Tanium Core includes Tanium's patented linear chain communications infrastructure, which aims to deliver speed, scalability and reliability necessary for information technology security and operations teams. Tanium Core includes: Tanium Interact, a capability of Tanium Core that a ims to enable teams to ask questions in plain English, retrieve endpoint data, and take corrective action directly on the endpoint as desired and directed by the licensee; Tanium Connect for data export; Tanium Trends for reporting, APIs to integrate with third-party and in-house solutions; and Tanium Authoring, a capability of Tanium Core that authorizes the licensee to create platform extensions in the form of sensors and package actions. File hashing and disk indexing capabilities are available with the purchase of the Tanium Threat Response Module, the Tanium Asset Module, the Tanium Integrity Monitor Module, or the Tanium Reveal Module.	33.44
TAN-CORE-LTD-S	Tanium Core Limited Platform - Subscription	Represents a limited functionality of the Tanium Core Platform SKU. This product is offered to customers to address an Authorized Security Use Cases which are defined as incident reponse and IOC hunting, specifically designed to mange the aftermath of a security breach or attack, or gathering information on the prevalence of indicators of compromise such as forensic artifacts, remnants of an intrusion or characteristics of an active attack.	12.13
TAN-CORE-LTD-SUM	Tanium Core Limited Platform - Perpetual Support & Maintenance	Represents a limited functionality of the Tanium Core Platform SKU. This product is offered to customers to address an Authorized Security Use Cases which are defined as incident reponse and IOC hunting, specifically designed to mange the aftermath of a security breach or attack, or gathering information on the prevalence of indicators of compromise such as forensic artifacts, remnants of an intrusion or characteristics of an active attack.	5.00

TAN-ADI-S	Tanium Asset Discovery and Inventory - Subscription	Tanium Asset Discovery and Inventory enables discovery and reporting of endpoint data. Asset Discovery and Inventory includes Discover and Asset	9.25
TAN-ASSET-S	Tanium Asset - Subscription	Tanium Asset helps to enable organizations to collect hardware and software inventory data from endpoints to assist with auditing, reporting, and enrichment of asset inventory tools.	4.85
TAN-CERTMAN-S	Tanium Certificate Manager - Subscription	Tanium Certificate Manager provides modernized visibility into your digital certificates across your endpoint estate.	2.65
TAN-CLOUD TAN-CM-S	Tanium Cloud Infrastructure Software Tanium Client Management - Subscription	Tanium Cloud Infrastructure Software Tanium Client Management enables centralized and automated endpoint management. Client Management	-
TAN-COMP-S	Tanium Comply - Subscription	includes Discover, Patch, Deploy, Asset, Performance, Enforce, and Provision. Tanium Comply helps to enable organizations to evaluate their endpoints against current known vulnerabilities and industry security configuration standards. Continuous, automated scanning provides environment-wide results, aims to help teams assess their risk profile, improve their security hygiene, and identify data for industry compliance audits.	33.25 7.25
TAN-COMPPLUS-S	Tanium Comply Plus - Subscription	Tanium Comply Plus enables organizations to evaluate their environment for current known vulnerabilities and industry security configuration standards across endpoints with and without the Tanium client. Continuous, automated scanning provides environment-wide results, aims to help teams assess their risk profile, improve their security hygiene, and identify data for industry compliance audits.	9.25
TAN-CSM-S	Tanium Client Software Management - Subscription	Tanium Client Software Management enables discovery of endpoints and the ability to manage software. Client Software Management includes Discover, Patch, and Deploy.	15.25
TAN-DEPLOY-S	Tanium Deploy - Subscription	Tanium Deploy helps to enable organizations to update and manage software installations across the enterprise and puts a sequencing engine in the hands of administrators. Tanium Deploy includes a package gallery with pre- built application packages, Windows operating system upgrades, and identification criteria that aims to help reduce the time and expertise required for packaging frequently used applications.	7.25
TAN-DISC-S	Tanium Discover - Subscription	Tanium Discover helps to enable organizations to detect and identify unmanaged assets, categorize and label them, and take action to bring those assets under management.	4.85
TAN-EDR-S	Tanium Security Suite - Subscription	Tanium Security Suite is a product suite comprised of Tanium Discover, Tanium Threat Response, and Tanium	
TAN-ENFORCE-S	Tanium Enforce - Subscription	Enforce. Tanium Enforce enables Unified Endpoint Management and Security by providing centralized policy management across Operating System, Application, and Security for Windows and macOS environments that are on premises, remote, or cloud based.	27.00
TAN-IM-S	Tanium IM - Subscription	Tanium Integrity Monitor helps to enable organizations to continuously monitor critical operating system,	
TAN-IN-3		application, and log files at scale, while providing the ability to link file integrity monitoring with active alert investigation, configuration compliance, vulnerability scanning, and other aspects of endpoint management and security.	7.25
